

TURNBUCKLE GALVANIZED EYE AND HOOK

DESCRIPTION & FEATURES

- **Standard:** DIN1480
- **Versatile Design:** Turnbuckle with galvanized eye and hook for various rigging tasks.
- **Corrosion Resistance:** Made from galvanized steel for durability in harsh environments.
- **Tension Adjustment:** Allows precise length adjustments for cables and ropes.
- **Secure Attachments:** Eye and hook ends provide stable connections.
- **Common Uses:** Ideal for construction, rigging, and marine applications.
- **Easy Maintenance:** Requires minimal upkeep due to corrosion-resistant materials.
- **Durable and Reliable:** Ensures long-term performance in demanding conditions.

TURNBUCKLE GALVANIZED EYE AND HOOK
